

Husqvarna®

READY WHEN YOU ARE

HUSQVARNA GENUINE PARTS

GET THE MOST OUT OF YOUR HUSQVARNA

GENUINE PARTS – MADE BY HUSQVARNA, FOR YOUR HUSQVARNA.

Husqvarna Genuine Parts is a guarantee for high quality, endurance and safety. They are developed, tested and adapted to fit our products perfectly and will give your product uptime and performance. They ensure that our Husqvarna products can continue to run in tough environments under tough conditions, performing at their best year after year.

HUSQVARNA GENUINE PARTS

Our product development always starts with the user in focus, to make the work less strenuous and more efficient. This is also why every single part in a Husqvarna machine is rigorously tested to ensure it interacts optimally with all the other parts. This interaction produces the reliability and characteristics a customer have the right to expect from a Husqvarna Dealer, and proper servicing and using the right parts mean the equipment performs safely, reliably and economically in the long run.

With Husqvarna Genuine Parts you get the most out of your Husqvarna.

NEW HUSQVARNA MEGAPACKS

NEW OFFER /
ASSORTMENT

AT LAST NOW FUEL FILTER VALUE PACKS!

– AFTER REQUESTS FROM OUR DEALER
NETWORK HUSQVARNA PROUDLY PRESENTS
A NEW OFFER OF MEGAPACKS FUEL FILTER

Now you will no longer need to order any small quantities
– Husqvarna new megapacks include everything you need.

- New Branded Husqvarna bag.
- Ever lower price per piece
- Refill process occurs less frequently
- For longer engine life, we recommend you using Husqvarna Genuine parts – the outstanding efficiency of Husqvarna fuel filters protects your machines engine from damage.
- If filter becomes clogged, it will obstruct the fuel flow to the carburettor, and requier replacement. Offer/campaigns, additional sales with new machine.
- To avoid emergencies, replace the fuel filter once each service.

FUEL FILTERS

Husqvarna original fuel filters are developed and tested for optimum fuel purification.

FUEL FILTER	PNC	APPLICATION	QUANTITY
Fuel filter	503 44 32-01	Chainsaws, trimmers, other	10
Fuel filter	503 44 32-02	Chainsaws, trimmers, other	100

NEW HUSQVARNA MAINTENANCE KITS

SAVE TIME FOR YOUR TECHNICIANS!

– NOW YOU CAN ORDER MAINTENANCE
ENGINE PARTS UNDER ONE CATALOGUE
NUMBER

Now you will no longer need to order any small parts – Husqvarna 10 new maintenance kits include everything you need.

- New Branded Husqvarna boxes.
- One ordering system and delivery.
- You don't need to search for separate suppliers.
- Original OEM engine filters included.
- Easy to communicate for customers about regular maintenance.
- Easy to order and easy to sale: maintenance offer/campaigns, additional sales with new machine.
- Kit's fits also for engines from several products and brands.

HUSQVARNA X-CUT™ SP33G

Semi-chisel Pixel .325" 1.3 mm chain developed and manufactured by Husqvarna. Low kick guard, narrow kerf, low stretch and bumper drive link. Developed for demanding professional use on mid-size chainsaws, up to 55 cc. Original equipment on most Husqvarna 550 XP® chainsaws.

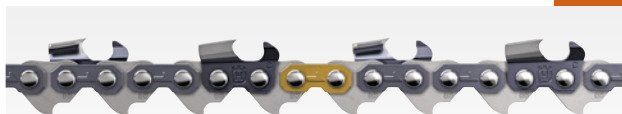

NEW

HUSQVARNA X-CUT™ S93G

The semi-chisel 3/8" mini 1.3 mm S93G chain is developed to fit smaller chainsaws like the 100- and 200-series or arborist top-handle saws. Optimized geometry and grinding provides high cutting speed. High efficiency balanced against the available power from the chainsaw will enable a smooth and precise cut.

NEW

HUSQVARNA X-CUT™ C85

An advanced, full chisel, high-performance 3/8" 1.5 mm chain for full-time professional forestry saws. The chain is made entirely by Husqvarna to ensure you get the best possible output from your chainsaw. With its outstanding durability and cutting efficiency, a sharpness that lasts and low stretch, it gives you better results, less need for maintenance and lower costs.

NEW

HUSQVARNA X-CUT™ SP21G

SP21G is a semi-chisel .325" mini 1.1 mm chain especially developed to increase the cutting speed and efficiency for full-time use battery chainsaws. The chain is energy efficient and the optimized geometry delivers a consistently smooth cut, excellent bore cut as well as improved handling and manoeuvrability.

X-FORCE™ BARS

The X-Force™ laminated bars offer easier maintenance and increased productivity. Depending on the model, these benefits come from features such as updated profiles, larger nose sprocket, cutouts in the centre plate, additional bearings, supported shields, and the removal of the grease hole. Available in 3/8" (15–20"), 3/8" mini (12–16") and .325" (13–20").

LAMINATED BARS WITH NOSE SPROCKET

The gentle curve and small nose radius reduce the risk of kickback and facilitates good cutting control. Coated bars to protect against scratches and corrosion. Available in 3/8" mini (10–16") and .325" mini (10–16").

HUSQVARNA SOLID BARS

Solid bars are used for hard species of timber, thick bark and in very sandy, dusty or sooty conditions. The bars are coated to protect against scratches and corrosion. Available in 3/8" (18–28") and .404" (24–42").

SOLID BARS WITH REPLACEABLE TIP

Recommended for use with long bars to reduce load on the bar tip. The load is transferred to the high-quality roller bearing. The bars are coated to protect against scratches and corrosion. Replaceable tip is available as a spare part. Available in 3/8" (18–28").

CARVING SMALL BAR MOUNT

Carving bars have a smaller nose radius and are suitable for sculpting and other precision work. Available in 1/4" (10–12").

YOUR OPTIMAL CHOICE OF CUTTING EQUIPMENT

Our trimmer heads, trimmer lines and blades do more than simply cut. Their excellent design, high-quality materials and facilitating technology mean you are always properly equipped to take on the job. **Find out more at [husqvarna.com](https://www.husqvarna.com)**

COMBI-GUARD

NO NEED TO SWITCH

The combination guard is handy if you want to switch between using a grass blade and a trimmer head, without having to remove and replace the guard. It works equally well for both.

CONVENIENT FEED

NEED MORE TRIMMER LINE? JUST PUSH OR TAP.

With the Tap-n-Go feature, all you have to do to feed more trimmer line, is press the trimmer head against the ground. For machines equipped with remote feed, all it takes is a press on the button on the handle. Easy, more robust and a smart stop to unintentional line feed when you hit rocks or stones.

BioX TRIMMER LINE

WHAT IS OXO-BIODEGRADATION?

A normal trimmer line can last up to 600 years before it is broken down by sunlight but it will never fully decompose to a natural raw material. BioX is made of a high-grade polymer with a patented mineral additive that makes it degrade in 7–20 years, depending on the climate. It is a three step process.

1. UV-LIGHT

2. HEAT FROM THE SOIL

3. MICROORGANISMS

**NEW****SAW BLADES, NORDIC**

Developed especially for forestry experts. This blade provides excellent cutting performance out of box. It is optimized to run on our machines RPM's and makes cutting effective by fast acceleration and an improved geometry.

**SAW BLADES**

Developed in close collaboration with professional clearing saw workers, delivering a winning combination of maximum cutting capacity and low vibration levels. Available with 22 or 24 teeth.

**GRASS BLADES**

For dense, coarse grass, but not for woody growth. Grass falls onto the blade for neat rows. Available with 4 or 8 teeth.

**GRASS KNIVES**

For dense, coarse grass, but not for woody growth. Available with 2, 3 or 4 teeth.

**FULLY-AUTOMATIC TRIMMER HEAD, 25-55 CC**

The line feeds automatically when it becomes too short. The line length is self-adjusting to ensure that the best performance is achieved.

**SEMI-AUTOMATIC TRIMMER HEADS, 25-55 CC**

The Tap-n-Go function automatically feeds line when the head is pushed against the ground. On the X variants, the Tap-n-Go button is equipped with ball bearing for a longer working life. T35 Universal includes adapters that allow it to be attached to most other trimmers.

**TRIMMER HEAD ALLOY**

Robust and reliable with quick and easy line loading. Maintenance is minimized and the low cutting height provides a tidy result.

**'X' FORCE™ TRIMMER LINE**

A co-extruded trimmer line for those hard jobs where extra performance is needed. The copolymer formula makes this trimmer line wear resistant for reliable cutting. Fits all standard trimmer heads.

**WHISPER X TRIMMER LINE**

A co-extruded trimmer line for those hard jobs where extra performance is needed. The copolymer formula makes this trimmer line wear resistant for reliable cutting. The whisper pattern lowers the noise level. Fits all standard trimmer heads.

**WHISPER TRIMMER LINE**

Trimmer line with a whisper pattern, lowering the noise level. Less air resistance allows the engine to reach its optimal speed quicker and improves the efficiency. Fits all standard trimmer heads.

**BioX TRIMMER LINE**

Trimmer line with low environmental impact for professional and private grass trimming. Oxo-biodegradable within 7-20 years. Whisper pattern for quieter running, ideal in residential areas. Fits all standard trimmer heads.

**QUADRA TRIMMER LINE**

Professional trimmer line with a square profile. The sharp edges provide excellent cutting performance for perfect results, especially on thick/heavy grass. Fits all standard trimmer heads.

**PENTA TRIMMER LINE**

Professional trimmer line with a pentagon profile. The sharp edges provide excellent cutting performance for perfect results, especially on thick/heavy grass. Fits all standard trimmer heads.
